C19-YRS (COVID-19 Yorkshire Rehabilitation Scale)

The C19-YRS (COVID-19 Yorkshire Rehabilitation Scale) is an outcome measure to capture persistent symptoms of Long COVID. The self-report version of C19-YRS gives a symptoms severity score, functional disability score and global health score. NHS England in its National Clinical Guidance (Nov 2020) has advocated its use in all Long COVID clinics being set up in England. NICE guidelines (Dec 2020) have also recommended its use for assessment of Long COVID.

For digital use please request using: https://c19-yrs.com/

Long COVID is a clinical syndrome of symptoms that persist 4 weeks after contracting COVID-19 illness. Symptoms include breathlessness, fatigue, pain, cognitive problems (brain fog), sleep problems, autonomic dysfunction, functional disability in daily activities and reduced quality of life. There are currently more than 100,000 individuals in the UK (and more than 4 million worldwide) struggling with Long COVID. This is set to rise in the aftermath of the current ongoing second wave of the pandemic.

The C19-YRS (COVID-19 Yorkshire Rehabilitation Scale) is an outcome measure to capture persistent symptoms of Long COVID. The self-report version of C19-YRS gives a symptoms severity score, functional disability score and global health score. It was developed by clinical academics in the Academic Department of Rehabilitation Medicine, LIRMM (led by Dr Sivan). NHS England in its National Clinical Guidance (Nov 2020) and NICE guidelines (Dec 2020) have recommended its use for assessment and monitoring of Long COVID.

Commercial Licences:

If you are interested in using the C19-YRS (COVID-19 Yorkshire Rehabilitation Scale) for commercial purposes, including clinical, organisational, or consultancy applications, please get in touch to discuss licensing options. We offer licence agreements to suit different commercial needs.

Contact us at enquiries@licensing.leeds.ac.uk to begin the conversation about commercial licensing.

Academic/Research Licences (available to order):
The C19-YRS was originally developed in UK/English. It is available for academic and research purposes under the following terms:

Category

Healthcare Questionnaires & Outcome Measures/Quality of Life Scales
COVID-19 Resources
Non-Software (HEBCI)

Authors

Dr Manoj Sivan
Dr Mike Horton
Dr Stephen Halpin
Professor Rory O'Connor

View online

- Original UK/English version: Free of charge for academic/research use only (i.e. strictly non-commercial purposes).
- Approval Process: All licence requests are subject to review and approval.
- Eligibility: Academic/research licences are only granted to individuals affiliated with a university or recognised research institution.
- Email Requirement: Requests **must** be submitted using an academic email address (either your own or your supervisor's).

Available Translations (free for academic use only):

- German (Germany)
