

Easy-BILAG

Easy-BILAG is novel template for recording BILAG-2004 disease activity assessments in systemic lupus erythematosus (SLE). It has been designed to assist clinicians complete disease activity assessments using the established instrument, the BILAG-2004 index, more quickly and accurately in routine clinical practice.

Easy-BILAG is novel template for recording BILAG-2004 disease activity assessments in systemic lupus erythematosus (SLE). It has been designed to assist clinicians complete disease activity assessments using the established instrument, the BILAG-2004 index, more quickly and accurately in routine clinical practice. Easy-BILAG unifies the glossary, case report form and scoring algorithms required for BILAG-2004 assessments into a single colour-coded document.

In a validation exercise of 10 case vignettes completed by 30 Rheumatology professionals, Easy-BILAG improved the scoring accuracy, speed, and inter-rater reliability of BILAG-2004 assessments compared with the standard format published BILAG-2004 proforma. As a result, this tool is now the format recommended by British Isles Lupus Assessment Group.

Easy-BILAG is accompanied by an optional 'self-adjudication' checklist to help end users verify correct use. An Essential Guide to BILAG-2004 scoring as well as the workbook of cases used in the Easy-BILAG validation exercise are also made available on this platform for educational and training purposes.

Commercial Licences:

If you are interested in using the Easy-BILAG for commercial purposes, including clinical, organisational, or consultancy applications, please get in touch to discuss licensing options. We offer licence agreements to suit different commercial needs.

Contact us at enquiries@licensing.leeds.ac.uk to begin the conversation about commercial licensing.

Academic/Research Licences (available to order):
